## Academic Exhibition

| No. | Name                                                                                                                           |
|-----|--------------------------------------------------------------------------------------------------------------------------------|
| ①   | Advanced Bioimaging Support (ABiS)                                                                                             |
| ②   | Platform for Advanced Genome Science                                                                                           |
| ③   | Gifu University<br>Center for Conservation of Microbial Genetic Resource<br>Medical Mycology Research Center, Chiba University |
| ④   | Research Organization of Information and Systems                                                                               |

## Exhibition

| No. | Name                              |
|-----|-----------------------------------|
| ①   | MIYARISAN PHARMACEUTICAL CO. LTD. |
| ②   | NIPPON Genetics Co, Ltd.          |
| ③   | Oral Microbiome Center            |
| ④   | World Fusion Co., LTD.            |
| ⑤   | New England Biolabs Japan Inc.    |
| ⑥   | Bioengineering Lab. Co., Ltd.     |
| ⑦   | INTEGRA Biosciences               |
| ⑧   | Illmina, K.K.                     |
| ⑨   | MICROJET Corporation              |
| ⑩   | Oxford Nanopore Technologies Ltd. |
| ⑪   | Thermo Fisher Scientific K.K.     |
| ⑫   | Southern Research                 |
| ⑬   | TOMY DIGITAL BIOLOGY CO., LTD     |

## Poster

| Poster No.    | Category                                         |
|---------------|--------------------------------------------------|
| P-001 ~ P-048 | 1. Taxonomy / Epidemiology / Infectious diseases |
| P-049 ~ P-075 | 2. Ecology                                       |
| P-076 ~ P-122 | 3. Physiology / Structural biology               |
| P-123 ~ P-157 | 4. Genetics / Genomics / Biotechnology           |
| P-158 ~ P-231 | 5. Pathogenicity                                 |
| P-232 ~ P-265 | 6. Host defense                                  |
| P-266 ~ P-349 | 7. Antimicrobial agents and resistance           |
